

Fill in the gaps

The Mother We Share by CHVRCHES

Never took your side	As old as your omens
Never cursed your name	And the mother we share
I keep my lips (1) tight	Will never (14) your proud head (15)
Until you go	falling
We've come as far	The way is long
As we're (2) gonna get	But you can make it easy on me
Until you realize	And the mother we share
That you should go	Will never (16) our cold (17)
I'm in misery (3) you can seem	(18) calling
As old as (4) omens	Into the night for once
And the mother we share	We're the only ones left
Will never keep (5) (6) (7)	I bet you (19) know
from falling	Where we could go
The way is long	And when it all ***** up
But you can make it (8) on me	You put (20) head in my hands
And the mother we share	It's a souvenir
Will never keep our cold hearts from calling	For when you go
In the dead of night	I'm in (21) where you can seem
I'm the (9) one here	As old as your omens
And I will (10) you	And the (22) we share
Until you go	Will never (23) your proud head from falling
'Cause if I (11) the truth	The way is long
I will always be free	But you can make it easy on me
And keep a prize (12) me	And the mother we share
Until you go	Will (24) keep our cold hearts from calling
I'm in (13) where you can seem
