Way In The World by Nina Nesbitt

Wonder where your dreams go?

Fill in the gaps

I'm working in a retail store		Do you fell like you're (8)	under
It's not what I'm cut out for		Under it all?	
I live for my breaks		And I storm out of work and I take my seat	
I know there's something more		At the front of the bus	
So much to explore		And my headphones bleed	
But it (1) so far away		And right there in a flash	
I'm not lost, I'm just finding		With tears on my cheeks	
My own way in the world		I can suddenly see	
I'm not lost, I'm just finding		We're not lost, we're just finding	
My own way in the world		Our own way in the world	
In the big old world		We're not lost, we're just finding	
Do you ever, do you ever, do you wonder		Our own way in the world	
Wonder where (2) dreams go?		In the big old world	
Do you fell like you're falling under		Do you ever, do you ever, do you wonder	
Under it all?		Wonder where your dreams go?	
Do you ever, do you ever, do you wonder		Do you fell like you're falling under	
Wonder (3) your dreams go?		Under it all?	
Do you fell like you're falling under		Do you ever, do you ever, do you wonder	
Under it all?		Wonder where your (9) go?	
I don't know if it's bad or good		Do you fell like you're falling under	
Walking (4) this street (5)	you	Under it all?	
I don't know (6) what I want		Do you ever, do you ever, do you wonder	
One thing I've got		Wonder where your dreams go?	
Is a good idea of what I'm not		Do you fell like you're falling under	
I'm not lost, I'm just finding		Under it all?	
My own way in the world		Do you ever, do you ever, do you wonder	
I'm not lost, I'm just finding		Wonder where your dreams go?	
My own way in the world		Do you fell like you're (10)	under
In the big old world		I'm not lost	
Do you ever, do you ever, do you wonder		I'm just finding	
Wonder (7) your dreams go?		My own way	
Do you fell like you're falling under		In the world	
Under it all?		In the big old world	
Do you ever, do you ever, do you wonder
