

Fill in the gaps

How long before I get in?	The buildings that you put up
Before it starts, (1) I begin	Or Japan and China, all lit up
How (2) (3) you decide?	The sign that I couldn't read
Before I (4) (5) it (6) like	Or a light that I couldn't see
Where to? (7) do I go?	Some things you have to believe
If you've never tried then you'll never know	But others are puzzles, puzzling me
How (8) do I have to climb	All (17) noise and all that sound
Up on the side of this mountain of mine?	All (18) (19) I got found
Look up, I look up at night	And birds go flying at the speed of sound
Planets are (9) at the speed of light	To show you how it all began
Climb up, up in the trees	Birds (20) (21) from the
Every chance that you get	underground
Is a Chance you seize	If you could see it then you'd understand
How long am I gonna stand	(Oh) when you see it (22) you'll understand
With my head stuck under the sand?	All those signs I knew what (23) meant
I'll stop before I can stop	Some things you can't invent
Or before I see things the (10) way up	Some get made and some get sent
All that noise and all (11) sound	
All those (12) I got found	Birds go (24) at the speed of sound
And birds go flying at the (13) of sound	To show you how it all began
To show you how it all began	Birds (25) flying from the underground
Birds came flying from the underground	If you (26) see it then you'd understand
If you (14) see it then you'd understand	(Oh) (27) you see it (28) you'll
Ideas that you'll never find	understand
Or the inventors (15) (16) design
