

See, he tastes like you only sweeter

## Fill in the gaps

| I'm gonna make you bend and                       | (Ohhhhhh)                                    |
|---------------------------------------------------|----------------------------------------------|
| I'm gonna make you bend and break                 | They say                                     |
| (It sent you to me without wings)                 | I only think in the (7) of crunching numbers |
| Say a prayer, but let the good times roll         | In (8) rooms                                 |
| In case God doesn't show                          | Collecting page six lovers                   |
| (Let the (1) times roll, let the good times roll) | Get me out of my mind                        |
| And I want (2) words to make things right         | Get you out of those clothes                 |
| But it's the wrongs                               | I'm a liner away                             |
| That make the words come to life                  | From getting you into the mood               |
| Who (3) he think he is?                           | One night and one more time                  |
| If that's the worst you got                       | Thanks for the memories                      |
| Better put your fingers back to the keys          | Even though they weren't so great            |
| One night and one more time                       | He tastes like you only sweeter              |
| Thanks for the memories                           | One night yeah, and one more time            |
| Even though they weren't so great                 | Thanks for the memories                      |
| He tastes like you (4) sweeter                    | Thanks for the memories                      |
| One night yeah, and one more time                 | See, he tastes like you only sweeter         |
| Thanks for the memories                           | (Ohhhhhh)                                    |
| Thanks for the memories                           | One more night (one more night)              |
| See, he tastes like you only sweeter              | And one more time (one more time)            |
| (Ohhhhhh)                                         | Thanks for the memories                      |
| I'm looking forward to the future                 | Even though they weren't so great            |
| But my eyesight is going bad                      | He tastes like you only sweeter              |
| And this crystal ball                             | One more night (one more night)              |
| It's always cloudy                                | And one more time (one more time)            |
| Except for (except for)                           | Thanks for the memories                      |
| When you look into the (5) (look into the past)   | Even though they weren't so great            |
| One night stand                                   | He tastes like you only sweeter              |
| One night stand                                   | One more yeah (one more night)               |
| One night and one more time                       | And one more (9) (one more time)             |
| Thanks for the memories                           | Thanks for the memories                      |
| Even though (6) weren't so great                  | Thanks for the memories                      |
| He tastes like you only sweeter                   | See, he tastes (10) you only sweeter         |
| One night yeah, and one more time                 | (Ohhhhhh)                                    |
| Thanks for the memories                           |                                              |
| Thanks for the memories                           |                                              |
