

And we can escape

## Fill in the gaps

All I feel now	And (14) the world (15) to
Is the weight of the day	find us
I need you (1) me	Both of us hidden (16) view
To push it away	If you, fade into me
When we disappear (2) each other	Let go, (17) in
Our colors (3) and bleed (4) one	Drown in the moment (18) me
Fade into me, (5) into you	Sinking 'til we (19) to breathe
Two of us melting together	Fade into me, fade into you
Until we (6) something new	The two of us melting together
And we can escape	Until we (20) something new
And (7) the world chasing to find us	And we can escape
Both of us hidden from view	And watch the world chasing to find us
If you, fade into me	(Oh) fade into me
Fade (8) me	Fade into you
When I'm broken	The two of us (21) together
You're the one thing I need	Until we (22) something new
Like an ocean	And we can escape
I (9) you crash (10) me	And watch the world chasing to find us
We disappear (11) each other	Both of us hidden (23) view
Our (12) appear and bleed into one	If you
Fade (13) me, fade into you	Fade (24) me
The two of us melting together	Fade into me
Until we become something new
