

## Fill in the gaps

| Let's play a game my dear, you read my mind        | Under the influence of wine and jazz              |
|--|---|
| While I try to figure out                          | I'll say I love you every time                    |
| What's inside                                      | And you, you will believe me though               |
| Under the influence of wine and jazz               | One day   |
| I'll say I love you every time                     | I'm feeling high                                  |
| And you, you will believe me though                | Oh, the next I'm (4) down                         |
| One day  | And I don't think that you (5) ever (6)           |
| I'm feeling fine                                   | me well   |
| Oh, the next I'm (1) down                          | Or listened to the songs I sang                   |
| And I don't think that you have ever known me well | They were honest                                  |
| Or listened to the songs I sang                    | And I don't think that you have (7) felt this way |
| They were honest                                   | Or listened to (8) words I sang                   |
| And I don't think (2) you have ever known me well  | They were 'bout you                               |
| Or listened to those words I sang                  | One day   |
| They were 'bout you                                | I'm feeling fine                                  |
| My eyes have danced with (3) a million times       | Oh, the (9) I'm feeling down                      |
| Waiting for the silent dawn                        | (I'm feeling down)                                |
