

Says we can beat this

Fill in the gaps

And it's a sad picture		Because these things (5) change
The final blow hits you		Can you feel it now?
Somebody else gets what you wanted again and		These walls (6) they put up
You know it's all the same		To hold us back will fall down
Another time and place		This revolution, the time will come
Repeating history and you're getting sick of it		For us to finally win
But I believe in whatever you do		We sing hallelujah
And (1) do (2)	_ to see it	We sing hallelujah
through		Tonight we stand
Because these (3) will change		Get off our knees
Can you feel it now?		Fight for what we've worked for all these years
These walls that they put up		And the (7) was long
To hold us (4) will fall down		It's the fight of our lives
This revolution, the time will come		But we'll stand up champions tonight
For us to finally win		It was the night things changed
We sing hallelujah		Do you see it now?
We sing hallelujah		These walls that they put up
So we've been outnumbered		To (8) us (9) fell down
Raided and now cornered		It's a revolution
It's hard to fight when the fight ain't fair		Throw your hands up
We're getting stronger now		'Cause we never gave in
Find things they never found		And we sing hallelujah
They might be bigger		We sang hallelujah
But we're faster and never scared		Hallelujah
You can walk away, say we don't need this		
But there's something in your eyes		

- 1. I'll
- 2. anything
- 3. things
- 4. back
- 5. will
- 6. that
- 7. battle
- 8. hold
- 9. back
