

Fill in the gaps

	You wonder what has happened to me
Something is about to give	I'm a man, I'm not a child
I can feel it coming	A man who sees
I (1) I know what it is	The (17) behind your eyes
I'm not afraid to die	Who's to say (18) the wind will (19)
I'm not afraid to live	you
And when I'm (2) on my back	Who's to know what it is (20) (21)
I hope to feel like I did	you
'Cause hardness, it (3) in	I don't know where the wind (22) blow
You need some protection	Who's to (23) when the (24) has
The (4) the skin	(25) around
I want you to know	I don't (26) see you cry
That you don't need me anymore	I know that this is not goodbye
I want you to know	Did I waste it?
You don't need anyone, (5) at all	Not so much I couldn't taste it
Who's to say where the wind (6) (7) you	Life should be fragrant
Who's to know what it is will break you	Roof top to the basement
I don't know which way the wind will blow	The last of the rock stars
Who's to (8) (9) the (10) has	When hip hop (27) the big cars
come around	In the time when new media
Don't wanna see you cry	Was the big idea
I know that (11) is not goodbye	That was the big idea
In summer I can taste the (12) in the sea	Big idea
There's a (13) (14) out of	
control on a breeze	
I wonder what's (15) (16) to you
