

## Fill in the gaps

Who's to say	Things aren't always (11) what they seem
What's impossible, well they forgot	I want to (12) the whole thing (13)
This world (1) spinning	down
And with each new day	I'll find the things they say (14) can't be found
I can (2) the change in everything	I'll share this (15) I (16) (17)
And as the surface breaks reflections fade	everyone
But in some (3) they remain the same	We'll sing and dance to Mother Nature's songs
And as my (4) begins to spread its wings	This (18) (19) spinning and there's
There's no stopping curiosity	no
I (5) turn the (6) thing upside down	Time to waste
I'll find the (7) (8) say just can't be	Well it all
found	Keeps (20) spinning round and round
I'll share this love I find with everyone	and
We'll sing and (9) to Mother Nature's songs	Upside down
I don't (10) this feeling to go away	Who's to say what's impossible
Who's to say	And can't be found
I can't do everything	I don't (21) this feeling to go away
Well I can try	Please don't go away
And as I roll along I begin to find	Is (22) how it's (23) to be
