The Rock Show by Blink 182

Fill in the gaps

	Gonna sneak in through her window
Hanging out behind the club	Everything's better when she's around
On the weekend	I can't wait till her parents go out of town
Acting stupid, getting drunk	I fell in love with the girl at the rock show
With my best friends	Black and white picture of her on my wall
I couldn't wait for the summer	I waited for her call
And the Warped Tour	She always kept me waiting
I remember it's the first time	And if I ever got another chance
That I saw her there	I'd still ask her to dance
She's getting kicked out of school	Because she kept me waiting
Cause she's failing	I fell in love with the girl at the rock show
I'm kinda nervous	She said "what?"
Cause I (1) all her friends hate me	And I told her that I didn't know
She's the one, she'll always be there	She's so cool
She took my hand and I made it I swear	Gonna sneak in through her window
Because I fell in love	Everything's better when she's around
With the girl at the (2) show	I can't wait till her parents go out of town
She (3) "what?"	I fell in love with the (7) at the rock show
And I told her that I didn't know	With the girl at the rock show
She's so cool	With the girl at the rock show
Gonna sneak in through her window	(I'll never forget tonight)
Everything's better when she's around	With the girl at the (8) show
I can't wait till her parents go out of town	(I'll never (9) tonight)
I fell in love with the (4) at the (5) show	With the (10) at the rock show
When we said	(I'll never forget tonight)
We were gonna move to Vegas	With the girl at the rock show
I remember the look her mother gave us	(I'll never forget tonight)
17 without a purpose or direction	With the girl at the rock show
We don't owe anyone a *** explatation	(I'll never forget tonight)
I fell in love with the girl at the rock show	With the girl at the rock show
She (6) "what?"	(I'll never forget tonight)
And I told her that I didn't know	
She's so cool	

- 1. think
- 2. rock
- 3. said
- 4. girl
- 5. rock
- 6. said
- 7. girl
- 8. rock
