

## Fill in the gaps

|   | If I (16) get the nerve to say |
|---|--------------------------------|
| Forever can never be (1) (2) for          | Hello in (17) cafe             |
| me  | Say you will                   |
| Feel like I've had long enough (3) you    | (Mm-hmm)                       |
| Forget the (4) now we won't let them see  | Say you will                   |
| But there's one (5) left to do            | (Mm-hmm)                       |
| Now that the (6) has lifted               | Promise me                     |
| Love has surely (7) my way                | You'll always be               |
| Marry Me                                  | Happy by my side               |
| Today and every day                       | I promise to                   |
| Marry Me                                  | Sing to you                    |
| If I ever get the nerve to say            | When all the music dies        |
| Hello in this cafe                        | And marry me                   |
| Say you will                              | Today and everyday             |
| (Mm-hmm)                                  | Marry me                       |
| Say you will                              | If I (18) get the nerve to say |
| (Mm-hmm)                                  | Hello in (19) cafe             |
| Together can (8) be (9) enough for        | Say you will                   |
| me  | (Mm-hmm)                       |
| Feel like I am close enough to you        | Say you will                   |
| You wear (10) and I'll wear out the words | (Mm-hmm)                       |
| I love you                                | Marry me                       |
| And you're beautiful                      | (Mm-hmm)                       |
| Now (11) the (12) is over                 |                                |
| And (13) has (14)                         |                                |
| (15) her my way                           |                                |
| Marry me                                  |                                |
| Today and every day                       |                                |
| Marry me                                  |                                |
