

## Fill in the gaps

to

| Please remedy my confusion   |                    | Pouring a caress on (14) shoulder      |
|------------------------------|--------------------|--|
| And (1) me (                 | 2) to the day      | Puzzled by shrewd innocence            |
| The silence of (3)           | seclusion          | Runs a thick (15) beneath              |
| Brings night (4) all you say |                    | Ushered into (16) graves               |
| Pull me (5) again            |                    | Nails bleeding from the struggle       |
| And guide me (6) pain        |                    | It is the end for the weak at heart    |
| I'm counting nocturnal hours |                    | Always the same                        |
| Drowned (7)                  | _ in haunted sleep | A lullaby for the ones who've (17) all |
| Faint flickering of (8)      | _ powers           | Reeling inside                         |
| Leaks out to show what you k | еер                | My (18) eye in your                    |
| Pull me down again           |                    | (19) reflects                          |
| And (9) me into              |                    | Stare of primal regrets                |
| There is failure inside      |                    | You turn your (20) and you (21) away   |
| This test I can't persist    |                    | Never again                            |
| Kept (10) by the enigma      |                    | Spiralling to the ground below         |
| No (11)                      | _ demanded here    | Like Autumn (22) left in the wake to   |
| Deadly (12)                  | made my wreath     | (23) away                              |
| Prosperous in your ways      |                    | Waking up to your sound again          |
| Pale (13) in the             | corner             | And lapse into the (24) of misery      |
|                              |                    |  |
