I don't think I'm getting over my predicament  
But if I jumped out of the window what would she say?  
It's not on me, it's all on you  
We can't deny the things we do  
I can't believe her pretty (2)\_\_\_\_\_  
Walked over me, all (3)\_\_\_\_\_ me  
Help me, help me doctor  
It (4)\_\_\_\_\_ to be an awful lot for me to understand  
I know I'm not a specimen  
The troubles and the (5)\_\_\_\_\_ I'm in  
I should be dead  
He said, let's all think  
Then you've had all your fun  
It's time to be a man  
So you better (6)\_\_\_\_\_ your bitc\*ing  
Think about what the (7)\_\_\_\_\_ would say  
It's not on me, it's all on you  
I can't prescribe what you want me to  
You need some sleep, you better leave  
He walked over me, all over me  
Wait until tomorrow, and it's gone  
So long

Wait until tomorrow, so long  
And it's gone  
Wait until tomorrow  
You beg and steal and borrow till it's gone  
-He don't got a lot but he's got all he needs-  
I need someone to love  
-And all he's got (8)\_\_\_\_\_ it's all that he needs-  
Somebody help me because  
I could hear the voices in the tube  
To get me through anything  
I do and (9)\_\_\_\_\_ (10)\_\_\_\_\_ do good by  
me  
A little pill, a little thrill  
Should I take it? I think I will  
And anything will do good so  
As long as it's always too good  
Either way I don't give a d\*mn  
What you people all say  
All now boy  
It's not on me, it's all on you  
I can't deny the things I do  
I can't believe her pretty feet  
Walked over me, all over me
