

## Fill in the gaps

Hello, you know	Is where I stand when you're back in my life
You look even (1) than the way you did not	Life's not so bad when you're way up this high
before	Everything is alright, everything is alright
And the moment that you kissed my lips you know	Moonshine, take us to the stars tonight
I started to feel wonderful	(3) us to that special place
It's something incredible	That (4) we went the last time, the
There's sex in your chemicals	(5) time
Oh, let's go	Moonshine, your love it (6) me (7)
You're the best way I know	alive
To escape the extra ordinary	Take us to that special place
This world ain't for you	That place we went the last time, the last time
And I know for damn sure this world ain't for me	Don't look down, don't you never look back
Lift off and say goodbye	We are not afraid to die young and live fast
Just let your fire set me free	Give me good times, give me love, give me laughs
Moonshine, take us to the stars tonight	Let's take a ride to the sky
Take us to that special place	Before the night is gone
That place we went the last time, the last time	Moonshine, take us to the stars tonight
I know I was with you last (2)	Take us to that (8) place
But it feels like it's been so long	That (9) we went the last time, the last time
And everybody that's around they knows	Moonshine, your love it makes me (10) alive
That I'm not myself when you gone	Take us to that special place
It's good to see you again	That place we went the last time, the last time
Good to see you again
