| (2) me, does she look at you the way I do? | But I find peace in solitude knowing           |
| Try and understand the words you say       | If I had but just one kiss this whole room     |
| And the way you move?                      | Would be glowing                               |
| Does she get the same big rush             | We'd be glowing                                |
