

## Fill in the gaps

Guess it's something that the boys don't stop	Too (5) fight, too much
When you think good time	Want to come around
Means to get lost just one night	I want you right now
I should remember all the lives I saved	I want you right now
Everytime I said I'm too hard to love	I want you right now
But tonight it's different	Want to come around
I can feel the summer coming on	I want you right now
And I stopped listening to this little	I want you right now
Voice (1) my brain	And you don't know how
Never mind too much fight	My heart is breaking down
Too much fight, too much	And the lights went out
Want to come around	Would you come around?
I want you right now	Would you take me out?
I want you right now	Come around, come around
I want you right now	Words tried to come out then
Want to come around	But you shut them with your hand
I want you right now	Horses in the rain, horses in the rain
I want you right now	Words tried to come out then
And you don't know how	But you shut them with your hand
My heart is breaking down	(6) in the rain, travellers in the sun
And the lights (2) out	Want to come around
Would you come around?	I want you right now
Would you take me out?	I want you (7) now
Come around, come around	I want you right now
Called the friends in common we had	Want to come around
Asked where you at	I want you right now
Yeah, that's a good start	I want you right now
It feels so stupid to run in the dark	And you don't know how
Looking for (3) girl who can get me back	My (8) is (9) down
But tonight's different	And the lights went out
I can feel the summer coming on	Would you come around?
And I stopped listening	Would you take me out?
Never mind too much fight	(10) around, come around
Never mind too much fight	
Never (4) too much fight	

- 1. inside
- 2. went
- 3. this
- 4. mind
- 5. much
- 6. Horses
- 7. right
- 8. heart
- 9. breaking
- 10. Come
