

## Fill in the gaps

## No room for doubt by Lianne La Havas

| You caught me, guilty                          | We all (16) mistakes, we do, I learnt from you  |
|------------------------------------------------|-------------------------------------------------|
| Taking the pieces of you                       | Please sleep softly, leave me no room for doubt |
| That night, you took a flight                  | (17) sleep softly, leave me no room for doubt   |
| I couldn't (1) to do                           | Please (18) softly, (19) me no                  |
| I won't let a (3) bet                          | room for doubt                                  |
| (4) to make me go blue                         | Please sleep softly, (20) me no room for doubt  |
| I (5) go solo                                  | Leave me no room for doubt                      |
| But that'd be the (6) thing to do              | We all make mistakes, we do, I learnt from you  |
| We all (7) mistakes, we do, I (8)              | We all (21) mistakes, we do, I learnt from you  |
| from you                                       | We all make mistakes, we do, I learnt from you  |
| We all make mistakes, we do, I (9) from you    | We all make mistakes, we do, I learnt from you  |
| I tiptoe, too slow                             | Please sleep softly, leave me no                |
| Out of the door to (10) house                  | (22) (23) softly, leave me no                   |
| l (11) you (12) (13)                           | room for doubt                                  |
| (14) way (15) me out                           | Please (24) softly, leave me no                 |
| Outside, too bright                            | Please sleep softly, leave me no (25) for doubt |
| You're within I'm without                      | (26) me no room for doubt                       |
| You're within                                  |                                                 |
| We all make mistakes, we do, I learnt from you |                                                 |
