

Fill in the gaps

It's (1) a while since the two of us talked	I was down on one knee and you were mine for life
About a week since the day that you walked	We were thinking we would never be apart
Knowing things would never be the same	With your name tattooed (8) my heart
(2) your empty heart and mine full of pain	Who would have thought it would end up like this?
So explain to me, how we came to this	Where everything we (9) (10)
Take it back to the night we kissed	gone
It was Dublin city on a Friday night	And the only chance we have of moving on
There were vodkas and coke, I was Guinness all night	Is try to take it back before it all went wrong
We were sitting with our backs against the world	Before the worst, before we mend
Saying (3) that we thought but never heard	Before our hearts decide
Who would have thought it (4) end up like this?	It's time to love again
Where everything we talked about is gone?	Before too late
And the only chance we have of moving on	Before too long
Is try to take it (5) before it all went wrong	Let's try to take it back before it all went wrong
(6) the worst, before we mend	And if the clouds don't clear
Before our hearts decide	Then we'll rise above it, we'll rise above it
It's time to love again	Heaven's gate is so near
(7) too late	Come walk with me through
Before too long	Just like we used to, just like we used to
Let's try to take it back before it all went wrong	Let's take it back before it all went wrong
There was a time	Before the worst, before we mend
That we'd stay up all night	Before our hearts decide
Best friends yet talking till the daylight	It's time to love again
Took the joys alongside the pain	Before too late
With not much to loose, but so much to gain	Before too long
Are you hearing me? Because I don't wanna miss you	Let's try to take it back before it all went wrong
You were adrift on memory bliss	
In this Grafton Street on a rainy night
