Before the worst by The Script

Fill in the gaps

It's been a while since the two of us talked	I was down on one knee and you were mine for life
About a week since the day that you walked	We were thinking we would never be apart
Knowing things would (1) be the same	With your name tattooed across my heart
With your empty heart and mine (2) of pain	Who would have thought it would end up like this?
So explain to me, how we came to this	Where everything we talked about is gone
Take it back to the night we kissed	And the (8) chance we have of moving on
It was Dublin city on a Friday night	Is try to take it back before it all went wrong
There (3) vodkas and coke, I was Guinness all	Before the worst, before we mend
night	Before our hearts decide
We were sitting with our backs against the world	It's time to love again
Saying things that we thought but never heard	Before too late
Who would have thought it (4) end up like this?	Before too long
(5) (6) we talked	Let's try to take it back before it all (9) wrong
about is gone?	And if the clouds don't clear
And the only chance we have of moving on	Then we'll rise above it, we'll rise (10) it
Is try to take it back before it all went wrong	Heaven's gate is so near
Before the worst, before we mend	Come walk with me through
Before our hearts decide	Just like we used to, just like we used to
It's time to love again	Let's take it back before it all went wrong
Before too late	Before the worst, before we mend
Before too long	Before our hearts decide
Let's try to take it back before it all went wrong	It's time to love again
There was a time	Before too late
That we'd stay up all night	Before too long
Best friends yet talking till the daylight	Let's try to take it back before it all went wrong
Took the joys alongside the pain	
With not much to loose, but so much to gain	
Are you hearing me? Because I don't wanna miss you	
You were (7) on memory bliss	
In this Grafton Street on a rainy night	

- 1. never
- 2. full
- 3. were
- 4. would
- 5. Where
- 6. everything
- 7. adrift
- 8. only
- 9. went
- 10. above
