

Fill in the gaps

I figured it out	Never together
I (1) it out from black and white	Cause they see (14) in a different light
Seconds and hours	Like us
Maybe they had to (2) (3) time	They never tried
I know how it goes	Like us
I know how it goes (4) (5) and right	You and I
Silence and sound	We don't wanna be like them
Did they ever (6) each other tight	We can (15) it (16) the end
Like us	Nothing can come between
Did they ever fight	You and I
Like us	Not even the Gods (17) can
You and I	Separate the two of us
We don't (7) be like them	'Cause You and I
We can make it till the end	We don't (18) be like them
Nothing can (8) between	We can make it (19) the end
You and I	Nothing can (20) between
Not (9) the (10) (11) can	You and I
Separate the two of us	Not even the (21) above can
No nothing can come between	Separate the two of us
You and I	No (22) can come between
Oh, you and I	You and I
I figured it out	Oh, you and I
Saw the mistakes of up and down	Ooooh You and I
Meet in the middle	We could (23) it if we try
There's always (12) for common ground	Oh, you and I
I see what it's like	You and I
I see what it's (13) for day and night	

1. figured
