

## Fill in the gaps

I figured it out	Never together	
I figured it out from black and white	Cause they see things in a (6)	light
Seconds and hours	Like us	
Maybe they had to take (1) time	They never tried	
I (2) how it goes	Like us	
I know how it goes from wrong and right	You and I	
Silence and sound	We don't wanna be like them	
Did (3) ever (4) each other tight	We can make it (7) the end	
Like us	Nothing can (8) between	
Did they ever fight	You and I	
Like us	Not even the Gods above can	
You and I	Separate the two of us	
We don't wanna be like them	'Cause You and I	
We can make it till the end	We don't wanna be like them	
Nothing can come between	We can make it (9) the end	
You and I	Nothing can come between	
Not even the Gods above can	You and I	
Separate the two of us	Not even the Gods above can	
No (5) can come between	Separate the two of us	
You and I	No nothing can come between	
Oh, you and I	You and I	
I figured it out	Oh, you and I	
Saw the mistakes of up and down	Ooooh You and I	
Meet in the middle	We (10) make it if we try	
There's always room for common ground	Oh, you and I	
I see what it's like	You and I	
I see what it's like for day and night
