Thinking Out Loud by Ed Sheeran

Fill in the gaps

When your legs don't work like they used to before	It's evergreen
And I can't sweep you off of your feet	And baby (8) smile is forever
Will (1) mouth still remember the taste of my love?	In my mind and memory
Will your eyes still smile from your cheeks?	I'm thinking about how
Darling I will be loving you till we're seventy	People fall in love in mysterious ways
And baby my heart could still feel as hard at twenty three	And maybe it's all part of a plan
And I'm thinking about how	I'll just keep on making the same mistakes
People fall in (2) in mysterious ways	Hoping that you'll understand
Maybe just the (3) of a hand	That baby now
Well me I fall in love with you every single day	Take me into your loving arms
And I just want to tell you I am	Kiss me under the light of a thousand stars
So honey now	Place your head on my beating heart
Take me into your loving arms	I'm thinking out loud
Kiss me under the light of a (4) stars	Baby we found love
Place your head on my beating heart	Right where we are
I'm thinking out loud	So baby now
Maybe we found love	Take me into your loving arms
Right where we are	Kiss me under the light of a thousand stars
When my (5) all but gone	Oh darling, place your head on my beating heart
And my memory fades	I'm thinking out loud
And the crowds don't remember my name	Baby we found love right where we are
When my hands don't play the strings the same way	Baby we found love right where we are
I know you will still love me the same	And we found love right where we are
Because (6) your (7) could never	
grow old
