I sit and wait	And as the (15) grows
does an angel contemplate my fate	She (16) flesh to my bones
And do they know	And (17) is dead
The (1) where we go	I'm loving angels instead
When we're grey and old	And (19) it all she (20) me
'cause I (2) been told	protection
That salvation (3) their wings unfold	A lot of (21) and affection
So when I'm lying in my bed	Whether I'm (22) or wrong
Thoughts running through my head	And down the waterfall
And I feel that love is dead	Wherever it may take me
I'm loving angels instead	I know that life won't break me
And (4) it all she offers me protection	When I come to call
A lot of love and affection	She won't forsake me
Whether I'm right or wrong	I'm (23) angels instead
And (5) the waterfall	(Instrumental)
Wherever it may (6) me	And through it all she offers me protection
I (7) that (8) won't break me	A lot of love and affection
When I come to call	Whether I'm (24) or wrong
She won't (9) me	And down the waterfall
I'm (10) instead	Wherever it may take me
When I'm feeling weak	I know that life won't break me
And my pain (12) (13) a one way	When I come to call
street	She won't forsake me
I look above	I'm loving angels (25)
And I know I'll always be (14) with love
