Fill in the gaps

ou change (1) mind	You, you don't really wanna stay, no
Like a (2) changes clothes	You, but you don't really wanna go, oh
eah, you PMS like a bitch	You're hot then you're cold
would know	You're yes (7) you're no
And you always think	You're in and you're out
Always speak cryptically	You're up and you're down
should know	Someone call the doctor
That you're no good for me	Got a case of a love bipolar
Cause you're hot then you're cold	Stuck on a rollercoaster
ou're yes then you're no	Can't get off this ride
ou're in and you're out	You change your mind
ou're up and you're down	Like a girl changes clothes
ou're wrong when it's right	'Cause you're hot then you're cold
t's black and it's white	You're yes then you're no
Ve fight, we break up	You're in and you're out
Ve kiss, we (3) up	You're up and you're down
∕ou, you don't really wanna stay, no	You're wrong when it's right
ou, but you don't really (4) go, oh	It's black and it's white

∕ou're up and you're down	You're yes then you're no
We used to be just like twins, so in sync	You're in and you're out
The same energy now's a (5) battery	You're up and you're down
Jsed to laugh 'bout nothing	You're wrong when it's right

ou're yes then you're no	You, but you don't really wanna go, oh
ou're in and you're out	You're hot then you're cold
ou're up and you're down	You're yes then you're no
ou're wrong when it's right	You're in and you're out
