The Big Bang Theory by Barenaked Ladies

Our whole universe was in a hot dense state,
Then (1)_____ fourteen billion years ago expansion
started. Wait...
The Earth began to cool,
The autotrophs began to drool,
Neanderthals developed tools,
We built a wall (we built the pyramids),
Math, science, history, unraveling the mysteries,
That all started with the big bang!
"Since the (2)_____ of man" is really not that long,
As every galaxy was formed in less time than it takes to sing
this song.
A fraction of a second and the (3)_____ were
made.
The (4)_____ stood up straight,
The (5)_____ all met their fate,
They tried to leap but they were late
And they all died (they froze their asses off)
The oceans and pangea

See ya wouldn't wanna be ya
Set in motion by the same big bang!
It all started with the big BANG!
It's expanding ever outward but one day
It (6)_____ pause (7)_____ start to go the other
way,
Collapsing ever inward, we won't be here, it won't be hurt
Our best and brightest figure that it'll make an even bigger
bang!
Australopithecus would really have been sick of us
Debating why we're here they're catching deer (we're catching
viruses)
Religion or astronomy, Encarta, Deuteronomy
It all started (8)_____ the big bang!
Music and mythology, Einstein and astrology
It all started (9)_____ the big bang!
It all started with the big BANG!
