

## Fill in the gaps

### The Big Bang Theory by Barenaked Ladies

Our whole universe was in a hot dense state,  
Then nearly fourteen billion years ago expansion started.  
Wait...  
The Earth began to cool,  
The autotrophs began to drool,  
Neanderthals developed tools,  
We built a wall (we built the pyramids),  
Math, science, history, unraveling the mysteries,  
That all started with the big bang!  
"Since the (1)\_\_\_\_\_ of man" is really not that long,  
As every galaxy was formed in (2)\_\_\_\_\_ time  
(3)\_\_\_\_\_ it takes to sing this song.  
A fraction of a second and the (4)\_\_\_\_\_ were  
made.  
The bipeds stood up straight,  
The dinosaurs all met their fate,  
They (5)\_\_\_\_\_ to leap but they were late  
And they all died (they froze their asses off)  
The oceans and pangea

See ya wouldn't (6)\_\_\_\_\_ be ya  
Set in motion by the same big bang!  
It all started with the big BANG!  
It's expanding ever outward but one day  
It will pause then start to go the other way,  
Collapsing ever inward, we won't be here, it won't be hurt  
Our best and (7)\_\_\_\_\_ figure that it'll make  
an even bigger bang!  
Australopithecus would really have been sick of us  
Debating why were here they're catching (8)\_\_\_\_\_ (we're  
catching viruses)  
Religion or astronomy, Encarta, Deuteronomy  
It all (9)\_\_\_\_\_ with the big bang!  
Music and mythology, Einstein and astrology  
It all started with the big bang!  
It all started with the big BANG!

Answer

1. dawn
2. less
3. than
4. elements
5. tried
6. wanna
7. brightest
8. deer
9. started
