Our whole universe was in a hot (1)_____ state,
Then nearly (2)_____ billion years ago

Math, science, history, unraveling the mysteries,
That all started with the big bang!
"Since the dawn of man" is really not that long,
As every galaxy was formed in less time than it takes to sing

A fraction of a second and the elements were made.

Debating why were here they're catching deer (we're catching
