Then nearly fourteen billion years ago expansion started. Wait...
The (1)_____ began to cool,

"Since the dawn of man" is really not that long,
As (3)_____ galaxy was (4)_____ in (5)_____ time than it takes to sing this song.
A fraction of a second and the (6)_____ were made.
The (7)_____ stood up straight,
The dinosaurs all met their fate,
They tried to leap but they were late
And they all died (they froze their asses off)
The oceans and pangea
See ya wouldn't wanna be ya
Set in motion by the same big bang!
It all started with the big BANG!
It's expanding ever outward but one day
It will pause then start to go the other way,
Collapsing ever inward, we won't be here, it wont be hurt
Our best and brightest (8)_____ that it'll make an even bigger bang!
Australopithecus would really (9)_____ been sick of us
Debating why were here they're catching deer (we're catching viruses)

It all started with the big bang!
It all started with the big BANG!
