## Fill in the gaps

| III Dack   | brought me back to you and I know it              |
|--|---|
| 'm back  | So I just kept breathing my friends               |
| Prouder than ever baby                           | Waiting for some God to choose                    |
| ouder than ever maybe                            | Saying this ain't the day that it ends            |
| One more pill, just one more beer                | 'Cause there's no white light and I'm not through |
| One less star in the (1) for us                  | I'm alive   |
| But maybe she just wanted to be free             | I'm alive   |
| Heartless pictures on TV                         | And I've got so much more that I want to do       |
| Change that channel that could have been me      | Was it music?                                     |
| said   | Was it science that saved me?                     |
| Maybe she just wanted to be free                 | Or the way that you prayed for me?                |
| So I just kept breathing my friends              | Guess either way I thank you                      |
| Naiting for the man to choose                    | I'm alive   |
| Saying this ain't the day that it ends           | And tomorrow is mine                              |
| Cause there's no white light and I'm not through | I said tomorrow is mine                           |
| 'm alive   | Said I just got to keep on breathing              |
| 'm alive   | (I said (5) is mine)                              |
| And I've got so much more                        | I said no, don't let go                           |
| That I want to do with the music                 | (Keep on breathing)                               |
| Was it music that saved me?                      | Got to keep on, got to keep on, got to keep on    |
| Or the way that you (2) for me?                  | I just got to keep on breathing                   |
| Guess either way I thank you                     | I'm alive   |
| 'm alive   | I'm alive   |
| Hotel, (3) makes it clear                        | And I've got so much more (6) I want to give      |
| One more voice we will (4) hear again            | Was it music?                                     |
| But maybe he just wanted to be free              | Was it science (7) saved me?                      |
| And I don't know what the hell                   | Or the way that you prayed and (8) for me         |
| What the Gods                                    | Well I (9) you I'm alive                          |
| What the **** I'm saying half the time           |   |
| But something divine                             |   |
