My Guardian Angel by Place Vendome

I've got the (1) feeling	Could everything be a dream?
That I am never really alone	Guarding my heart, protecting my soul
I can (2) her (3) (4) me	There is a guardian angel here
Wherever I go, she will always know	She is watching over me
Suddenly I'm awake	Healing my wound, guiding me home
There is no one (5) all is empty here	There is a guardian angel here
Maybe it's a mistake	She is keeping me alive
Could everything be a dream?	My guardian angel
Guarding my heart, protecting my soul	Suddenly I'm awake
There is a guardian angel here	There is no one here all is empty here
She is watching over me	Maybe it's a mistake
Healing my wound, (6) me home	Could everything be a dream?
There is a guardian angel here	Guarding my heart, protecting my soul
She is keeping me alive	There is a guardian (8) here
My guardian angel	She is watching over me
I'm looking in the mirror	Healing my wound, guiding me home
I can (7) see a stranger's face	There is a guardian angel here
Who am I turning into?	She is (9) me alive
Save me now, before it is too late	My guardian angel
Suddenly I'm awake	
There is no one here all is empty here
