

Fill in the gaps

Did i ever tell you	stronger than before
how you live in me	i (6) love again
every waking moment	even if it takes a lifetime to get (7) you
even in my dreams	heaven only know
and if all this talk is crazy	If i'm true to myself
and you don't know what i mean	nobody else
does it really matter	can take the place of you
just as long as i believe	but i've got to move on
(chorus)	tell me what else an i do
i will love again	(chorus)
though my heart is breaking	i will love again
i (1) love again	though my (8) is breaking
stronger than before	i will love again
i will love again	stronger than before
even if it takes a (2) to get over you	i will love again
heaven only knows	even if it takes a lifetime to get over you
i will love again	heaven only knows
People never tell you	i will (9) again
the way they truly feel	I will love again
i would die for you gladly	I will love again
if i knew it was for real	one day i know
so if all this (3) sounds crazy	i will love again
and the words don't (4) out right	you can't stop me from loving again
does it really matter	breathing again
if it gets me through this night	feeling again
(chorus)	i know,one day
i will love again	i'll love again
though my heart is breaking	
i will (5) again
