Way In The World by Nina Nesbitt

Fill in the gaps

I'm working in a retail store		Do you fell like you're falling under
It's not what I'm cut out for		Under it all?
I live for my breaks		And I storm out of work and I take my seat
I know there's something more		At the front of the bus
So much to explore		And my headphones bleed
But it feels so far away		And right there in a flash
I'm not lost, I'm just finding		With tears on my cheeks
My own way in the world		I can suddenly see
I'm not lost, I'm just finding		We're not lost, we're just finding
My own way in the world		Our own way in the world
In the big old world		We're not lost, we're just finding
Do you ever, do you ever, do you wonder		Our own way in the world
Wonder where (1) dreams go?		In the big old world
Do you fell (2) you're (3)	under	Do you ever, do you ever, do you wonder
Under it all?		Wonder where your dreams go?
Do you ever, do you ever, do you wonder		Do you fell like you're falling under
Wonder where your dreams go?		Under it all?
Do you fell like you're falling under		Do you ever, do you ever, do you wonder
Under it all?		Wonder where your dreams go?
I don't know if it's bad or good		Do you fell like you're falling under
Walking down this street without you		Under it all?
I don't know quite what I want		Do you ever, do you ever, do you wonder
One thing I've got		Wonder where your (7) go?
Is a good idea of (4) I'm not		Do you fell (8) you're falling under
I'm not lost, I'm just finding		Under it all?
My own way in the world		Do you ever, do you ever, do you wonder
I'm not lost, I'm just finding		Wonder where your dreams go?
My own way in the world		Do you fell like you're falling under
In the big old world		I'm not lost
Do you ever, do you ever, do you wonder		I'm just finding
Wonder where (5) dreams go?		My own way
Do you fell like you're (6) u	ınder	In the world
Under it all?		In the big old world
Do you ever, do you ever, do you wonder		
Wonder where your dreams go?
