## Should've Said No (Live) by Taylor Swift

You should've gone home

## Fill in the gaps

You should've (5)\_\_\_\_\_ twice 'fore you let it all go It's strange to think the songs we used to sing The smiles, the flowers, everything is gone... You should've know that word Yesterday I found out about you But with what you did with her Even now just looking at you feels wrong Get (6)\_\_\_\_\_ to me (get back to me) You say that you'd take it all back And I should've been there Given one chance In the back of your mind It was a moment of weakness I shouldn't be asking myself "why?" And you said "yes" You shouldn't be begging for You should've said "no" Forgiveness at my feet... You should've (1)\_\_\_ \_\_\_\_ home You should've said "no" You should've thought twice 'fore you let it all go Baby, and you (7)\_\_\_\_\_ still have me You should've know that word I can't resist With what you did with her Before you go tell me this Was it worth it? Get back to me (get back to me) And I should've been there Was she worth this? In the back of your mind No no, no no no, no \_\_\_\_ "why?" You should've said "no" I shouldn't be asking (2)\_\_\_ You shouldn't be begging for You should've gone home Forgiveness at my feet... You should've thought twice 'fore you let it all go You should've (8)\_\_\_\_\_ that word You should've said "no" Baby, and you might still (3)\_\_\_ But with what you did with her You can see that I've been crying Get back to me (get back to me) Baby you know all the right things to say And I should've been there But do you In the back of your mind Honestly expect me to believe I shouldn't be asking myself "why?" We could (4)\_\_\_\_\_ be the same? You shouldn't be begging For forgiveness at my feet... You say that the past is the past You should've (9)\_\_\_\_\_ "no" You need one chance Baby, and you (10)\_\_\_\_\_ still have me It was a moment of weakness And you said "yes" You should've said "no"

- 1. gone
- 2. myself
- 3. have
- 4. ever
- 5. thought
- 6. back
- 7. might
- 8. know
- 9. said
- 10. might
