

Fill in the gaps

You were never young, my love	I (6) through
I can tell, not by the way that you smell	To get to you
But by the way you move your tongue, my love	It's so true, it's so true
Somebody (1) me	I see you
What can I do?	You know that I see you
Am I in love with the night?	And you know that it don't cost a thing
Am I in love with you?	For us to see (7) through
Will you take what I've got?	I crossed the party line
Will we die on the spot?	And (8) it just to find it
Too soon to say	All the people fall upon the beat
What's your name, anyway?	And get behind it
You make me	I want you to myself
Make moves	Can we take this somewhere else?
I see you, you know I see you	My (9) an open book
I break through	And you just took it off the shelf
To get to you	You make me make moves
It's so true, it's so true	I see you
I see you	You (10) I see you
You know that I see you	I break through
And you know that it don't cost a thing	To get to you
For us to see this through	It's so true, it's so true
When you came (2) focus	I see you
How could I?	You know that I see you
How could I (3) I (4)	_ And you know that it don't cost a thing
notice?	For us to see this through
An incision when you looked back	Touch me it's true
You gave me tunnel vision right through the pack	I see you
Will you take what I've got?	You know that I see you (I see you, I see you)
Will we die on the spot?	And you know that it don't cost a thing
Too soon to say	For us to see this through
What's your name, anyway?	
You make me make moves	
I see you, you (5) I see you
