

Please Please

Fill in the gaps

So you (1) knew love	Please
Until you (2) the (3) of grace	Get up off (15) knees, now
And you never felt wanted	Please
Until you'd (4) slap your face	Please
And you (5) felt alive	Please
Until you'd (6) wasted away	Leave it out
You had to win	'Cause love is pain
You couldn't (7) pass	And (16) is tough
The smartest ass	But (17) is not
At the top of the class	What you're thinkin' of
Your flyin' colors	September
Your (8) tree	Streets capsizin'
And all your lessons	Spillin' over (18) the drains
In history	Shards of glass
Please	Splinters like rain
Please	But you could only feel
Please	Your own pain
Get up off your knees, now	October, (19) gettin' nowhere
Please	November
Please	December
Please	Remember, we just startin' again
Leave it out	Please
So you never knew	Please
How low you'd stoop to make (9) call	Please
And you never knew	Get up off your knees now
What was on the ground	Please
Until (10) made you crawl	'Cause (20) is big
So you (11) knew	Is (21) us
That the (12) you keep	But (23) is not
You stole	What you're thinkin' of
Your catholic blues	It's (24) lovers deal
Your convent shoes	It's what lovers steal
Your (13) on tattoos	You know I've (25) it (26) to receive
Now they're makin' the news	'Cause you
Your holy war	My love
Your (14) star	I (27) never
Your sermon on the mount	Believe
From the boot of your car
