

Fill in the gaps

| I know that it is freezing | Well it takes one to know one, kid |
|--|---------------------------------------|
| But I (1) we have to walk | I (11) you've got it bad |
| I keep waving at the taxis | But what's so easy in the evening |
| They keep turning their lights off | By the (12) is such a drag |
| But Julie knows a party | I've got a flask inside my pocket |
| At some actor's west side loft | We can share it on the train |
| Supplies are endless in the evening | And if you promise to stay conscious |
| By the (2) they'll be gone | I (13) try and do the same |
| When (3) is lonely | Well, we (14) die from medication |
| I can be my own best friend | But (15) (16) (17) all |
| I get a (4) and the paper | the pain |
| Have my own conversations | But (18) was normal in the evening |
| With the sidewalk and the pigeons | By the morning (19) insane |
| And my window reflection | And I'm not (20) what the trouble was |
| The (5) I polish in the evening | That (21) all of this |
| By the morning (6) **** | The (22) all (23) run away |
| And I know you have a heavy heart | But the feeling never did |
| I can feel it when we kiss | It's |
| So many men stronger than me | Not something I (24) recommend |
| Have thrown (8) backs out trying to lift | But it is one way to live |
| It | 'Cause (25) is (26) in the |
| But me I'm not a gamble | moonlight |
| You can count on me to split | By the morning never is |
| The love I sell you in the evening | It was so simple in the moonlight |
| By the (9) won't exist | Now is so complicated |
| You're looking skinny like a model | It was so simple in the moonlight |
| With your eyes all painted black | So simple in the moonlight |
| You (10) keep going to the bathroom | So simple in the moonlight |
| Always say you'll be right back | |
