From the books that we have read And in the face of every criminal

Fill in the gaps

At The Bottom Of Everything by Bright Eyes

So (1) was this woman	Strapped firmly to a chair
And she was on an airplane	We must stare, we must stare, we must stare
And she was flying to meet her fiance	We (16) take all of the medicines
Seaming (2) above the	Too expensive now to sell
The largest (3) on planet Earth	Set fire to the preacher who is (17) us
And she was (4) next to this man	hell
Nho you know she had tried	And in the ear of every anarchist
To (5) conversations	That sleeps but doesn't dream
And the only thing she had really (6) him say	We must sing, we must sing, we (18) sing
Was to order his bloody Mary	It'll go like this, all right
And she's sitting there	While my mother waters plants
And she's reading (7) really arduous magazine	My father loads his gun
article	He says : "death will give us back to God
About a Third World (8) that she can't	Just like the (19) Sun
Even pronounce the name of and	Is (20) to the lonesome ocean"
She is feeling	And then they splashed into the deep blue sea
Very bored, and very despondent	Oh, it was a wonderful splash
And then (um) suddenly	We (21) blend into the choir
There was this huge mechanical failure	Sing ecstatic with the whole
And one of the (9) gave out	We (22) memorize nine numbers
And they started, just, falling	And deny we (23) a soul,
Thirty-thousand feet	And in this endless race for property
The pilot is on the microphone and he	And privilege to be won
He's saying "I'm sorry, I'm sorry, oh my God	We must run, we (24) run, we must run
'm sorry" and apologizing	We must hang up in the belfry
And she (10) at the man and she says	Where the (25) and moonlight laugh
She (11) she (12) "where are we	We must stare into a crystal ball
going?"	And only see the past
And (um) he looks at her	And in the caverns of tomorrow
And he says	With just our flashlights and our love
'We're going to a party	We must plunge, we must plung, we must plunge
t's a birthday party	And then we'll get down there
t's (13) birthday party, happy birthday darling	Way down to the (26) bottom of everything
Ne love you very, very	And (27) we'll see it
Very, very, very much"	Oh we'll see it, we'll see it, we'll see it!
And (14) (um) he starts humming this little tune	Oh my morning's (28) back
And, it kind of goes like this	The whole world's (29) up
s kind of: 1, 2, 1, 2, 3, 4	All the city buses swimming past
Ne must talk in every telephone	I'm happy just because
Get (15) off the web	I found out I am really no one
We must rip out all the epilogues
