## The Stars (Are Out Tonight) by David Bowie

|                                      | They're waiting to make their moves       |
|--------------------------------------|---|
| Stars are never sleeping             | But the stars are out tongiht             |
| Dead ones and the living             |   |
| We live closer to the earth          | Here they are upon the stairs             |
| Never to the heavens                 | Sexless and not aware                     |
| The stars are never far away         | They are the stars, they're dying for you |
| Stars are out tonight                | But I hope they live forever              |
| They watch us from behind (1) shades | They burn you with (6) radiant smiles     |
| ***, (2) and Kate and Brad           | Trap you with their beautiful eyes        |
| From hehind their tinted (3) stretch | They're (7) and shamed or drunk or scared |
| Gleaming like blackened sunshine     | But I hope they live forever              |
| Stars are (4) sleeping               | Their jealousy's spilling down            |
| Dead ones and the living             | The stars must (8) together               |
| Naiting for the first move           | We will never be rid of these stars       |
| Satyrs and their child wives         | But I hope they live forever              |
| Naiting for the last move            | And they know just what we do             |
| Soaking up our primitive world       | That we (9) and turn at night             |
| Stars are never sleeping             | They're waiting to make their moves on us |
| Dead ones and the living             | But the stars are out tonight             |
| Their jealousy's spilling down       | Yeah                                      |
| The stars must stick together        | The stars are out tonight                 |
| We will never be rid of these stars  | The stars are out tonight                 |
| But I hope they live forever         | Yeah                                      |
| And they know just (5) we do         |   |
