21st Century Breakdown by Green Day

Born into nixon I was raised in hell			A worker of pride	
A (1) c	hild where	the	My debt to the status quo	
(2) dwelled			The scars on my hands	
The last one born, and the first one to run			And the means to an end	
My town was blind from refinery sun			Is all that I have to show	
My generation is zero				
I never (3) it as a (4)	cla	ss hero	I (7) my	pride
21st century breakdown			And I choked on my faith	
I once was lost but never was found			I've given my (8)	_ and my soul
I think I am losing what's left of my mind			I've broken my fingers	
To the 20th century deadline			And lied through my teeth	
I was made of poison and blood			The pillar of damage control	
Condemnation is what I understood			I've been to the edge	
Videogames to the tower's fall			And I've thrown the bouquet	
Homeland security could kill us all			Of flowers left over the grave	
My generaton is zero			I sat in the waiting room	
I never made it as a working class hero			Wasting my time	
21st century breakdown			And waiting for Judgement Day	
I once was lost but never was found			I praise liberty	
I think I am losing what's left of my mind			The "Freedom to Obey"	
To the 20th century deadline			Is the song that strangles me	
We are the class of, the class of 13			Well, don't cross the line	
Born in the era of humility			(Oh) dream, America dream	
We are the (5)	in the decline		I can't even sleep	
Raised by the bastards of 1969			From the light's early dawn	
My name is no one			(Oh) scream, America scream	
The long lost son			Believe what you see	
Born on the 4th of July			From heroes and cons	
Raised in an era of (6)	and cons			
That left me for dead or alive
