

Fill in the gaps

You trembled like you'd seen a ghost	On the day you wake up needing somebody
And I gave in	And you've learned
I lack the (1) you need the most, you said	It's okay to be afraid
Where have you been	But it will never be the same
You (2) all that sweetness to run and hide	And as the floods move in
I wonder why	And your body starts to sink
I remind you of the days you poured your heart into	I was the last thing on (8) mind
But you never tried	I know you better than you think
I've fallen from grace, (3) a blow to my face	'Cause it's simple, darling
I've loved and I've lost, I've loved and I've lost	I gave you a warning
Explosions	Now everything you own
On the day you wake up needing somebody	Is falling from the sky in pieces
And you've learned	So watch them fall (9) you in slow motion
It's okay to be afraid	I (10) that you'll find peace of mind
But it (4) never be the same	And I'll find you another time
It (5) never be the same	I'll love you, another time
You (6) my soul bleeding in the dark	Explosions
So you could be king	On the day you wake up needing somebody
The rules you set are still untold to me and I've	And you've learned
Lost my faith in everything	It's okay to be afraid
The nights you could cope	But it will never be the same
Your intentions (7) gold	
But the mountains will shake	
I need to know I can still make explosions
