

## Fill in the gaps

All I feel now	And (13) the (14) chasing to find
Is the (1) of the day	us
I (2) you with me	Both of us hidden from view
To push it away	If you, (15) into me
When we disappear into each other	Let go, (16) in
Our colors appear and bleed (3) one	Drown in the moment (17) me
Fade into me, (4) into you	Sinking 'til we start to breathe
Two of us melting together	Fade into me, fade (18) you
Until we (5) something new	The two of us melting together
And we can escape	Until we (19) something new
And watch the world chasing to (6) us	And we can escape
Both of us (7) from view	And watch the world chasing to (20) us
If you, fade into me	(Oh) fade into me
Fade into me	Fade into you
When I'm broken	The two of us melting together
You're the one (8) I need	Until we become something new
Like an ocean	And we can escape
I feel you (9) (10) me	And watch the (21) to
We disappear into each other	(23) us
Our colors appear and bleed into one	Both of us (24) from view
Fade into me, (11) into you	If you
The two of us (12) together	Fade (25) me
Until we become something new	Fade into me
And we can escape
