

## Fill in the gaps

friends

I'm (1) in the light	So you wouldn't be wrong
I pray for the night	Being free, leaving me on my own
To take me, to (2) you too	
After so many words	And I (9) my own
Still nothing's heard	Still I rattled your bones
Don't (3) what we should do	I said some awful things and I take them back
So if someone could see me now	If we would try again
Let (4) see you	Just remember when
It was my greatest thrill	Before we were lovers I swear we were friends
When we (5) stood still	So if someone (10) see me now
You let me hold your hand 'til I had my fill	Let them see you
Even counting sheep	Let them see you
Don't help me sleep	See you through
I just toss and turn right there beside ya	All the hard things we've all gotta do
So if (6) help me now	'Cause this life is long
They'd help you too	So you wouldn't be wrong
They'd help you too	Being free, leaving me on my own
See you through	
All the hard things we've all (8) do	
Cause this life is long
