While Your Lips Are Still Red by Nightwish

Sweet little words made for silence	Kiss, while (4) (5) are still red
Not talk	While he's still (6) rest
Young heart for love	While bosom is still untouched, unveiled
Not heartache	Hold another hand
Dark (1) for catching the wind	While the hand's still without a tool
Not to veil the sight of a cold world	Drown into eyes while they're still blind
Kiss, while your lips are still red	Love while the night still hides the withering dawn
While he's (2) silent rest	(Oh)
While bosom is still untouched, unveiled	Kiss, while (7) lips are (8) red
Hold another hand	While he's still silent rest
While the hand's still without a tool	While bosom is (9) untouched, unveiled
Drown into eyes while they're still blind	Hold another hand
Love while the night still hides the withering dawn	While the hand's still without a tool
First day of love (3) comes back	Drown into eyes (10) they're still blind
A passionate hour's never a wasted one	Love while the night still hides the withering dawn
