Fill in the gaps

While Your Lips Are Still Red by Nightwish

Sweet little words made for silence	Kiss, while your lips are still red
Not talk	While he's still silent rest
Young (1) for love	While bosom is still untouched, unveiled
Not heartache	Hold another hand
Dark (2) for (3) the wind	While the hand's still without a tool
Not to veil the sight of a cold world	Drown into eyes while they're still blind
Kiss, while your lips are still red	Love (10) the night still hides the withering
While he's (4) silent rest	dawn
While bosom is still untouched, unveiled	(Oh)
Hold (5) hand	Kiss, while your lips are still red
While the hand's still without a tool	While he's still silent rest
Drown into (6) while they're still blind	While bosom is still untouched, unveiled
Love while the night still (7) the withering dawn	Hold another hand
First day of love never comes back	While the hand's still without a tool
A (8) hour's never a wasted one	Drown into eyes while they're still blind
The violin, the poet's hand	Love while the night still hides the withering dawn
