

Fill in the gaps

I must (1) dreamed a (2)	Use (17) and let's start trying
dreams	To make it a (18) worth living in
Been (3) by a million screams	I remember long ago
I can hear the marching feet	When the sun was shining
They're moving (4) the street	And all the (19) (20)
Now did you read the (5) today?	(21) all (22) the night
They say the danger's (6) away	In the wake of this madness
But I can see the fire's (7) alight	As I held you tight, so long ago
Burning into the night	I won't be (23) home tonight
There's too many men, too many people	My generation will put it right
Making too many problems	We're not just making promises
And not much love to go around	That we know we'll never keep
Can't you see, (8) is a land of confusion?	There's too many men
This is the world we live in	Too many people
And these are the hands we're given	Making too many problems
Use them and let's (9) trying	And not much love to go around
To make it a place (10) in	Can't you see, this is a land of confusion
Superman, where are you now	This is the world we live in
When everything's gone wrong somehow?	And these are the hands we're given
The man of steel, men of power	Use (24) and let's start trying
Are (12) control by the hour	To make it a place worth fighting for
This is the time, (13) is the place	This is a world we live in
So we look for the future	And these are the names we're given
But there's not (14) love to go around	Stand up and let's start showing
Tell me why (15) is a land of confusion	Just where our lives are going to
This is the world we live in	
And these are the (16) we're given
