You're all I see yeah

Until you're mine, I have to find

Fill in the gaps

Until You're Mine (Live) by Demi Lovato

My state of mind	A way to (3) this hole inside
Has finally got the best of me	I can't survive without you here by my side
I need you next to me	Until you're mine
I'll try to find	Not (4) be (5) close to complete
A way (1) I can get to you	I won't rest until youre mine
I just wanna get to you	Mine
The world I see is perfect now	Just (6) wondering
You're all around	If we were meant to be
With you I can breathe	Forget about fate and (7) hold me
Until you're mine, I have to find	I'm ready to begin
A way to fill this hole inside	The waiting has to end
I can't survive without you here by my side	Right now, today
Until you're mine	I've gotta find a way
Not gonna be even close to complete	Yeah, yeah
I won't rest until you're mine	Mine
Mine	Until you're mine
Alone inside	Until you're mine
I can (2) hear your voice	Without you here by my side
Ringing through the noise	Until you're mine
I can't fight my mind	Not gonna be even (8) to complete
Keeps on coming back to you	I won't rest Until you're mine
Always back to you	My (9) of mind
Wanted something out of reach	Has finally got the best of me
It's killing me	I need you next to me
