

And I'm

Right by your side

Fill in the gaps

If you were the Mona Lisa		Like a thief in the night
You'd be (1) in the Louvre		I stand in front of a masterpiece
Everyone would (2) to see you		And I
You'd be (3) to move	е	Can't tell you why
It (4) to me		It hurts so much
Is what you are		To be in love with a masterpiece
A rare and priceless work of art		'Cause after all
Stay behind		Nothing's indestructible
Your velvet rope		Nothing's indestructible
But I will not renounce all hope		Nothing's indestructible
And I'm		Nothing's indestructible
Right by your side		And I'm
Like a thief in the night		Right by (7) side
I stand in front of a masterpiece		Like a (8) in the night
And I		I stand in front of a masterpiece
Can't tell you why		And I
It hurts so much		Can't tell you why
To be in love with the masterpiece		It hurts so much
'Cause after all		To be in love with a masterpiece
Nothing's (indestructible)		And I'm
From the moment I first saw you		Right by your side
All the darkness (5) to bright		Like a thief in the night
An (6) p	painting	I stand in front of a masterpiece
Tiny particles of light		And I
It seem to me		Can't tell you why
Is what you're like		It hurts so much
The look but please		To be in love with a masterpiece
Don't touch me type		'Cause after all
And honestly		Nothing's indestructible
It can't be fun		'Cause after all
To always be the chosen one		Nothing's indestructible
