### Fill in the gaps

#### This Used To Be My Playground by Madonna

| This used to be my playground         | Well then, there's hope yet                 |
|---------------------------------------|---|
| This used to be my childhood dream    | I can see your (11) in our secret place     |
| This used to be the place I ran to    | You're not just a memory                    |
| Whenever I was in need of a friend    | Say goodbye to yesterday                    |
| Why did it have to end                | Those are (12) I'll never say               |
| And why do (1) always say             | (I'll never say)                            |
| Don't (2) back                        | This used to be my playground               |
| Keep your (3) held high               | (Used to be)                                |
| Don't ask them why                    | This (13) to be our pride and joy           |
| Because (4) is short                  | This (14) to be the place we ran to         |
| And before you know                   | That no one in the (15) could dare destroy  |
| You're (5) old                        | This used to be our playground (used to be) |
| And your (6) is breaking              | This used to be our (16) dream              |
| Don't hold on to the past             | This (17) to be the place we ran to         |
| Well, that's too much to ask          | I wish you (18) standing here (19) me       |
| This used to be my playground         | This used to be our playground              |
| (Used to be)                          | (Used to be)                                |
| This (7) to be my childhood dream     | This used to be our childhood dream         |
| This used to be the (8) I ran to      | This used to be the (20) we ran to          |
| Whenever I was in need of a friend    | The best things in (21) are always free     |
| Why did it (9) to end                 | Wishing you were here (22) me               |
| And why do they always say            |   |
| No regrets                            |   |
| But I wish that you were (10) with me |   |
