Fill in the gaps

The cycle repeated		You held me high			
As explosions broke in the sky		And I believed when you told that lie			
All that I needed		I played soldier, you played king			
Was the one thing I couldn't find		And struck me down when I kissed that ring			
And you were there at the turn		You lost that right to hold (5) crown			
Waiting to let me know		I built you up but you let me down			
We're building it up To break it back down		So when you fall, I'll take my turn			
		And fan the flames as your blazes burn			
We're (1)	it up	And you were there at the turn			
To burn it down		Waiting to let me know			
We can't wait To burn it to the ground		We're building it up			
		To break it back down			
The colors conflicted		We're building it up			
As the flames climbed into the clouds		To (6) it down			
I wanted to fix this		We can't wait			
But couldn't stop (2)	tearing it down	To burn it to the ground			
And you were there at the turn	d you were there at the turn		When you fall, I'll take my turn		
Caught in the burning glow		And fan the flames as (7)	(8)	burr	
And I was there at the turn		We can't wait			
Waiting to let you know		To burn it to the ground			
We're building it up		When you fall, I'll take my turn			
To break it back down		And fan the flames as (9)	blazes burn		
We're (3)	it up	We can't wait			
To burn it down		To burn it to the ground			
We can't wait
