

## Fill in the gaps

## The Kids We Used To Be... by Your Demise

Some (12)\_\_\_\_\_ say that best friends stay same

So this is the song	TII (13) you wrong
I write for everyone who I never forgot	I know I can still hear the singing
The kids we (1) to be are all dead	From the basement
Gone and forgotten	And I know you can too
Black eyed (2) and (3)	The smoke still rises
(4) girls	I know I can still hear the singing
Friday night love	From the basement
And Saturday morning regrets	And I know you can too
Summers came and went	The smoke still rises
But the love never left	I know I can (14) hear the singing
But the love never left	From the basement
So let's bring back the best years	And I know you can too
Nights spent (5) out	The (15) rises
Not (6) a ****	So let's bring back the best years
Being (7) on our luck	Nights (17) hanging out
Some people say that best friends (8) same	Not giving a ****
I'll prove you wrong	Being down on our luck
Sticks and stones never broke our bones	Some people say (18) best friends stay same
Standing outside our homes	I'll prove you wrong
Watching the sun come up	So let's (19) back the best years
5:00 am never looked so beautiful	Nights spent (20) out
And feeling	Not (21) a ****
Beaten and jaded	Being down on our luck
Never felt so ****** good	Some (22) say (23) (24)
I can't (9) for (10) to come	(25) stay same
around	I'll prove you wrong
So let's bring back the (11) years	I'll (26) you wrong
Nights spent hanging out	
Not giving a ****	
Being down on our luck
